

Dear Maria,

I send you in Mrs Perry's letter
that you may see what faithful labours
they are in the cause & also that you may know
how she is - I wish you felt as if it would
benefit you to come to Newton, next week
I intend to have the pleasure of coming to
Boston - I think Father much better than
before we left home - We have resumed our
evening walks but they are not to be
extraordinary long, The fruit or rather the
flowers of them you will see in the basket
which I send you to women which are
gathered in the woods - You must reserve all
you cannot write to say to me when we
meet. Your notes on slavery is interesting -
Cambridge really seems to be sound I fear
Erasmus will refuse -

My dear Deborah,

Your kind offer of doing any
thing for me I again improve by asking you to
press a bouquet from the flowers I send in to women
and bear them at my friend Helen's. If you
are at all engaged or it is not quite convenient

do not go - I thought perhaps there would be some
 to her - We are planning to have you here the
 4th but I shall send you an invitation or
 a better piece of paper as I did not complete
 writing to you when I took up my pen -

Yours effectually
 W. G. C.
